

**SUMMER SCHOOL IN
"ADVANCED NONPARAMETRIC STATISTICS"**

21-24 May 2007, Louvain-la-Neuve, Belgium

Organised by the Graduate School in Statistics and Actuarial Sciences of the Belgian French Speaking Community at the Institut de statistique, Université catholique de Louvain, Belgium.

Speakers are : **Oliver Linton** (LSE) on "*Nonparametrics in Finance*"

Jean Opsomer (Iowa State University) on "*Nonparametric Regression in Surveys*"

Marten Wegkamp (Florida State University) on "*Nonparametric Methods for Model Selection*"

Each of these international experts will give a 6 hrs lecture during this summer school. In addition informal contacts between participants and speakers will be encouraged during coffee, lunch and social activities. For detailed information and both preliminary and definitive registration AS SOON AS POSSIBLE (before April 15), please see

<http://www.stat.ucl.ac.be/edt/summerschool/index.html>

Participation is free of charge but travel and accommodation needs to be arranged on your own expenses.

We hope to see you soon here in Louvain-la-Neuve.

Rainer von Sachs
President of the Graduate School in Statistics and Actuarial Sciences
